THE PHOENIX AWARD

“It is the purpose of the Phoenix Award Committee to select, each year, a person now living, who has been active in and has made contributions to any phase of the glass industry. This may be in the field of science, production, or education relating to glass, and shall include glass containers, fiber glass, scientific glass, flat glass, tableware and electronic glass... As a symbol of this Award the recipients shall be presented with a glass sculpture representing the mythological Phoenix Bird.”
